

GLAMOUR LOCKS HAIR EXTENSIONS

At Home Care Guide

for WAVY & STRAIGHT Hair

Washing:

Always brush hair prior to washing. Wet your hair and apply Cuticle Lisse shampoo to your scalp, between the tracks and through the extensions. Apply more water to distribute the shampoo evenly and more easily generate lather. Do not roughly rub the shampoo into your extensions. Use your fingers to scrub your scalp between the tracks. Once your extensions loosen up, you can use the base of the track by moving it up and down to scrub your scalp. Rinse, and repeat if needed.

Helpful tip: fill a squeezable applicator bottle with water and add approx. 2 tbsp of shampoo and shake it, squeeze the mixture in between the tracks and all over your hair and extensions for even distribution).

Apply recommended conditioner to the mid-section of your hair and to the ends. Graze the left-over conditioner from your hand to the top of your head if needed while avoiding the scalp area. Do not apply conditioner to the base of the tracks/scalp, as it can cause the track to slip. A deep conditioning masque is highly recommended once a week.

Recommended Cuticle Lisse products: Shampoo & Conditioner, Argan Oil Deep Conditioning Masque, Detox Shampoo

Swimming & Sunscreen:

Wet your hair before entering the water, apply a silicon-based product or leave-in conditioner, and braid your hair. If you are getting in and out of the water, reapply the silicon-based product and brush any tangles out before entering the water again. Always wash and condition extensions after swimming. When using sunscreen only use brands that do not have the ingredients Avobenzone and Octocrylene as it can discolor the extensions.

Recommended Cuticle Lisse products: Smoothing Leave In Therapy, Keratin Serum, Silicone, Argan Shine Serum

Brushing:

Use a hair extension brush recommended by your stylist. Start from the top row and work your way to the bottom row while holding the base of your extensions to avoid tugging. Always start with the ends of the extensions and work your way up. Brush the roots of your natural hair using the edge of the brush. Use an alligator clip to section each row for easier brushing.

Recommended Cuticle Lisse products: Smoothing Leave In Therapy, Argan Oil Shine Serum, Keratin Leave In Serum. Cocktail products together on damp hair. Use Argan Oil Shine Serum daily on dry hair.

Styling:

Be gentle and do not tug on your extensions. You may let your hair air dry, or you can blow dry and style as usual. If using a hot tool for styling (curling iron, flat iron, etc.) use a heat protectant spray. We cannot guarantee that the hair will remain healthy if you use excessive heat. . Avoid a round brush near the base of the extension track as it may undo the track.

Recommended Cuticle Lisse products: Thermal Defense, Re-Styling Spray, Select Strength Hairspray

Sleeping:

Brush your hair before going to bed and pull it back into a low ponytail or braids. Do not sleep with wet hair as can cause tangling and matting. We recommend using a silk pillowcase.

Chemical treatments:

It is not recommended to chemically alter your Glamour Locks Hair Extensions. If you do, please note it is at your own risk. Glamour Locks and/or its employees are not responsible for any damages caused by chemical treatments and excessive heat styling.

GLAMOUR LOCKS HAIR EXTENSIONS

At Home Care

for **CURLY** hair

Washing:

Brush hair prior to washing. Wet your hair and apply Cuticle Lisse shampoo to your scalp, between the tracks and through the extensions. Apply more water to distribute the shampoo evenly and more easily generate lather. Do not roughly rub the shampoo into your extensions. Use your fingers to scrub your scalp between the tracks. Once your extensions loosen up, you can use the base of the track by moving it up and down to scrub your scalp. Rinse, and repeat if needed.

Helpful tip: fill a squeezable applicator bottle with water and add approx. 2 tbsp of shampoo and shake it, squeeze the mixture in between the tracks and all over your hair and extensions for even distribution.

Apply recommended conditioner to the mid-section of your hair and to the ends. Graze the left-over conditioner from your hand to the top of your head if needed while avoiding the scalp area. Do not apply conditioner to the base of the tracks/scalp, as it can cause the track to slip. A deep conditioning masque is highly recommended once a week.

Recommended Cuticle Lisse products: Keratin Shampoo & Conditioner, Argan Oil Deep Conditioning Masque, Detox Shampoo

Matted Extensions:

Brush your hair out from ends to roots with a soft and gentle brush (wet brush). Detangle your hair one row at a time, starting from the top row and working your way to the bottom. If matting persists, make an appointment to see a Glamour Locks Specialist as soon as possible to prevent damage to your hair extensions.

Swimming & Sunscreen:

Wet your hair before entering the water, apply a silicon-based product or leave-in conditioner, and braid your hair. If you are getting in and out of the water, reapply the silicon-based product and brush any tangles out before entering the water again. Always wash and condition extensions after swimming. When using sunscreen only use brands that do not have the ingredients Avobenzone and Octocrylene as it can discolor the extensions.

Recommended Cuticle Lisse products: Smoothing Leave In Therapy, Keratin Serum, Silicone, Argan Shine Serum

Brushing:

Use a hair extension brush recommended by your stylist. Start from the top row and work your way to the bottom row while holding the base of your extensions to avoid tugging. Always start with the ends of the extensions and work your way up. Brush the roots of your natural hair using the edge of the brush. Use an alligator clip to section each row for easier brushing.

It is advised that you only brush curly hair when wet. Brushing your curly hair when it's dry will separate your curls and results in very frizzy, untamed hair.

Helpful tip: Brush hair either before shower, or in the shower depending on curl and texture. If you have a lot of wefts on one row, or your hair seems to be heavy brush prior to the shower. Yanking on your extension when soaking wet can not only hurt, but create more tangles and breakage.

Recommended Cuticle Lisse products: Get It Curly Creamy Gel (for airdrying), Smoothing Leave In Therapy, Argan Oil Shine Serum, Keratin Leave In Serum. Cocktail products together on damp hair. Use Argan Oil Shine Serum daily on dry hair.

Styling:

Apply Cuticle Lisse *Get It Curly Creamy Gel* to your hair and the hair extensions. Scrunch your hair with your hands, and let it airdry or use a blow-dryer with a diffuser. Do not brush or run your fingers through your hair as it is drying, as it will make the hair frizzy, resulting in untamed curls. For extra curl definition and a highly styled look, you may use a curling iron on the front section, and random pieces throughout when hair is dry.

Recommended Cuticle Lisse products: Thermal Defense, Argan Oil, Deep Mint Oil Re-Styling Spray, Select Strength Hairspray

Sleeping:

Pull your hair back into a low ponytail or braids. Do not sleep with wet hair as it can cause tangling and matting. We recommend using a silk pillowcase.

Chemical treatments:

It is not recommended to chemically alter your Glamour Locks Hair Extensions. If you do, please note it is at your own risk. Glamour Locks and/or its employees are not responsible for any damages caused by chemical treatments and excessive heat styling.
