THE GLAMOUR LOCKS HAIR EXTENSION SYSTEM

The Glamour Locks Hair Extension System stands out as the sole patented option in the market that guarantees a non-damaging method of enhancing hair length and volume. This exclusive system employs patented tools and techniques to ensure the extensions are not only free from causing any damage, but are also comfortable to wear and seamlessly blend with natural hair while remaining completely undetectable.

How Is It Applied?

- 1 First, our Glamour Locks Certified Stylist will gather your hair to create a track across the back of your scalp (as seen in the first picture).
- 2 Then, the stylist will create a Glamour Track using a Tension Strap. The Tension Strap is what makes our system non-damaging. Other methods attach the extension hair directly to your natural hair, which causes a great deal of strain and damage. With our system, the extensions are attached to the tension strap which carries the weight of the extension hair.
Because of the sensitivity of this information and to deter copy cat methods, we do not have a picture of a completed Glamour Track with a Tension Strap. If you come in for your free consultation, we will be able to show you our product at that time.
- 3 As seen in the pictures to the left, the extension hair is added to the Glamour Track using our patented stitching method.
- 4 Next, we will begin the blending and styling process. Our stylists have extensively trained in extension blending and styling techniques, ensuring that you will leave with beautiful, long and natural looking hair.

CUTICLE HAIR

We Only Use 100% Human Hair. Never Synthetic.

Hair extensions are only as good as the hair they use. That's why we only use 100% single sourced Eastern European hair, one of the highest quality hair types available.

- ✎ Glamour Locks Limited Hair is our line of hair for unique textures such as curly and wavy hair
- ✎ We offer non-chemically treated hair and gently lightened hair
- ✎ Available in lengths up to 30"
- ✎ Sourced from Uzbekistan and Russia
- ✎ Lasts up to one year

- ✎ Cuticle Hair Wefts are composed of single drawn hair, which gives it a natural taper that closely matches your own hair
- ✎ Cuticle Hair is sourced from a single donor, giving it a consistent texture from root to end. This allows the extension hair to blend naturally with your hair
- ✎ Available in lengths up to 28"
- ✎ Sourced from Uzbekistan
- ✎ Lasts up to one year with proper at home care

Q&A

Q How Much Do Our Hair Extensions Cost?

The cost of our hair extensions is tailored to each client's unique needs. Some clients seek to enhance length, others prioritize volume, while some desire both length and volume. The total cost is determined by two main factors:

Q How Many Glamour Tracks Do I Need?

Your stylist will install between one and three Glamour Tracks, depending on your desired outcome. One Glamour Track installation is ideal for clients seeking to enhance volume exclusively. For those desiring volume along with a slight increase in length, two Glamour Tracks are recommended. A three Glamour Track installation is suited for our Glamour Gals aiming to achieve maximum volume and length.

Q How Much Hair Do I Need?

The amount of hair you will need is determined on the length and condition of your natural hair versus the length and volume you are trying to achieve with hair extensions. The more length you are wanting to add, the more hair extensions you are going to need installed. Whereas wanting to add a small amount of volume requires less hair.

Q How Long Do These Last?

Our hair extensions may last up to one year depending on our clients lifestyles and at home care. Typically, most clients opt to replace their hair extensions once or twice a year. As the extensions grow out naturally with your hair, maintenance appointments every six to eight weeks are necessary. During these appointments, your stylist will remove the extensions and reposition them to their original placement.

CROWN FUSIONS

CRANIAL PROSTHESIS

Crown Fusions are top of the line hair pieces for clients who are experiencing hair loss from the scalp. Designed with comfort in mind, our hair pieces feature lightweight, breathable construction with a secure attachment method.

Our crown fusions stand out by offering a more natural appearance than traditional wigs, providing consistent thickness from roots to ends. They are secured using our patented, non-damaging extension method, which is safe even for fine hair types. Additionally, we offer a variety of versatile hairstyles to suit your individual preference.

Most insurance companies will cover between 80-100% of the cost for your full cranial prosthesis and will allow you to receive one cranial prosthesis per year for medical hair loss. Depending on your insurance, your prosthesis may also be a tax deductible medical expense.

OUR TEAM

CERTIFIED HAIR EXTENSION STYLISTS

Glamour Locks Certified Hair Extension Stylists are meticulously chosen for their outstanding portfolios and demonstrated capability to deliver work of the highest quality.

Upon joining, these stylists undergo rigorous training through our Glamour Locks Assistant Program. This period of intensive, hands-on training equips them with the necessary skills to expertly apply The Glamour Locks Hair Extension System.

Assistants are required to reach our exacting standards of quality before they can progress to working on the salon floor. It's important to note that only those certified as Glamour Locks Hair Extension Stylists are qualified to correctly apply and maintain the Glamour Locks Hair Extension System. Beware of imitators who infringe on our patents; lacking the proper training in our unique application techniques, they pose a risk of causing damage to your hair.
